ENGAGING EXPERIENCE THROUGH
**AUGMENTED
REALITY**

www.octagon.studio

INTEGRATE AUGMENTED REALITY INTO YOUR BUSINESS

Improve your work with a little augmented magic. Armed only with your phone, imagine having the human anatomy model appears before you for a more hands-on learning, or challenge your visitors to a treasure hunt full of virtual surprises if they know what to scan. Amaze customers with a full view of your architectural masterpiece on top of the floorplan. Spice up your apparels, marketing tools, products, or anything else with remarkable hidden content, all packed in an AR app exclusively tailored for your business.

Start enjoying the benefits of Augmented Reality. Relay more information, provide hidden content, and give additional value to your products and services, all easily accessed with a single scan. Whether it is through our platform or a custom app, we offer our Augmented Reality service to help you simplify complex information, excite and engage your target audience with new experiences.

WHY WORK WITH US

Universal Device Compatibility

Enjoy Augmented Reality apps designed for a wide range of both Android and iOS mobile devices.

Realistic 3D Model

We craft our 3D models, textures, and animations with passion and attention to details to ensure its realistic quality.

Stable Augmentation Result

Our Augmented Reality (AR) experience is built on robust image tracking technology for a stable and effective augmentation result.

Intuitive UI/UX Design

Visually appealing yet easy to use, our apps are designed to maximize user experience.
